

# We want an edible playground!

It's all about getting children, teachers and parents involved in growing honest, tasty food in a little garden at school. Simple, really.

Why should we be part of it?

1. It can help us become a Healthy School.
2. It connects children to where food comes from.
3. Teachers can make it part of the Key Stage II curriculum, using the teaching ideas on the Edible Playgrounds Website.
4. It brings teachers, parents and children together in a common purpose - to grow stuff to eat!
5. The website also gives you great growing ideas, recipes, and tips on how to get help.
6. It's really good fun!

Please can we make this happen?  
We want to get growing! Find out more at [www.edibleplaygrounds.co.uk](http://www.edibleplaygrounds.co.uk)
